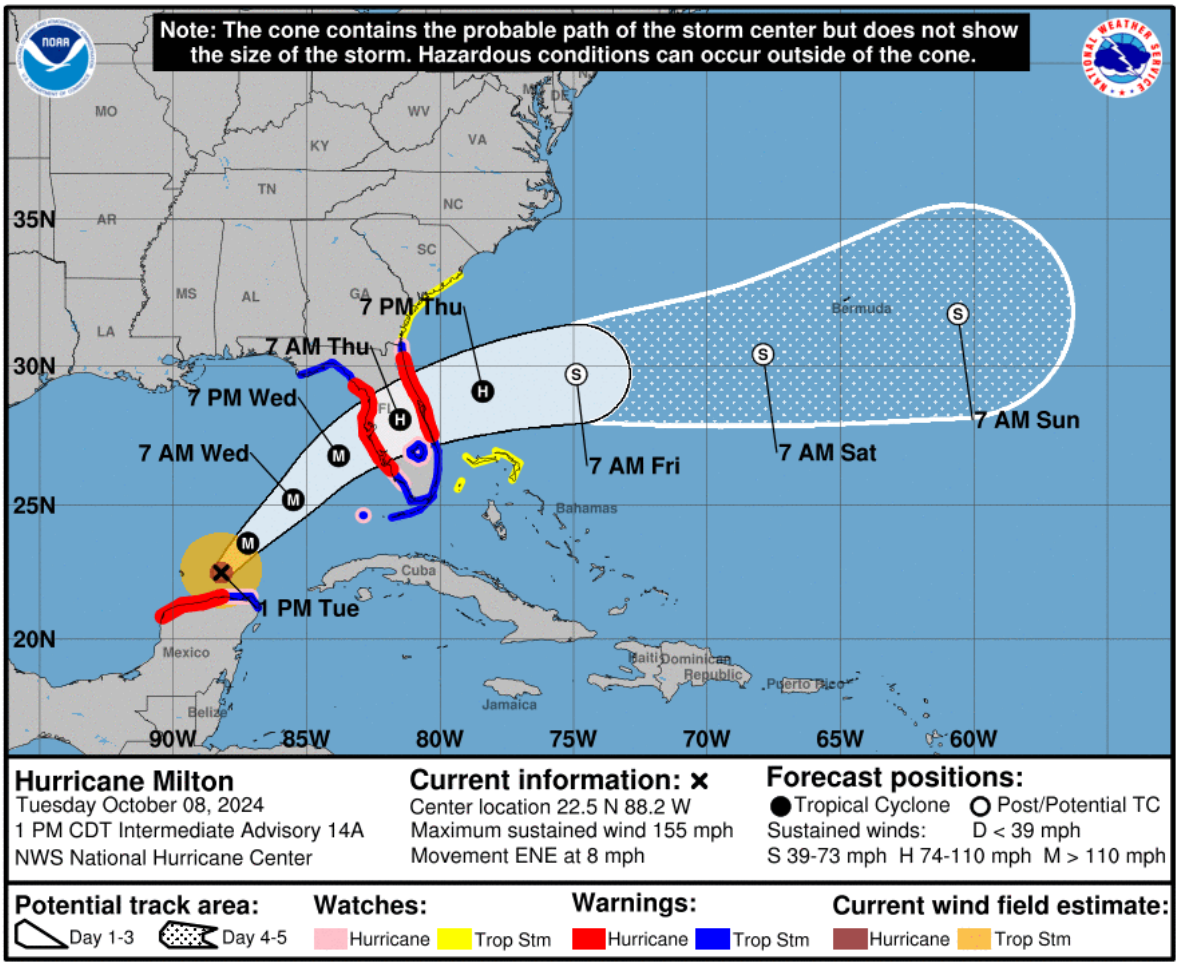
INCIDENT BRIEFING (ICS 201)

1. Incident Name:	2. Incident Number:	3. Date/Time Initiated:
Milton-AUXCOMM		Date: 10/08/24 Time: 1500 ET

4. Map/Sketch (include sketch, showing the total area of operations, the incident site/area, impacted and threatened areas, overflight results, trajectories, impacted shorelines, or other graphics depicting situational status and resource assignment)**:**



5. Situation Summary and Health and Safety Briefing (for briefings or transfer of command)**:** Recognize potential incident Health and Safety Hazards and develop necessary measures (remove hazard, provide personal protective equipment, warn people of the hazard) to protect responders from those hazards.

Hurricane & tropical storm wind gusts and debris on the roadway.
Do not cross flooded roads. The water may be deeper then it appears.
Maintain situational awareness
Stay hydrated
Avoid complacency
If in impacted area or deploying, have enough self-sustaining supplies for 72 hours at minimum.
Times referenced are in eastern time as that is the impacted area
All operations to continue until released by FDEM SWIC
SARNET Repeaters off-line for hardware issues below, all others should be online:
GAINESVILLE, ISLAMORADA,FLORIDA CITY, SARASOTA

6. Prepared by: Name: Arc Thames Position/Title: AUXC REGS 1 & 2 Signature: _____

INCIDENT BRIEFING (ICS 201)

1. Incident Name:	2. Incident Number:	3. Date/Time Initiated:
Milton-AUXCOMM		Date: 10/08/24 Time: 1500 ET

7. Current and Planned Objectives:

-Support State, county agencies as well as state & federal partners as requested
-Provide Auxiliary Communicators to operate radios at State EOC & alternate comms point at Santa Rosa County EM
-Prepare list of Auxiliary Communicators that can be deployed if necessary
-Coordinate amateur radio support throughout the impacted areas of the state
-Activate an emergency HF net to allow communication from county EOC's to the State EOC and other state/federal partners
  -Provide operators to staff the HF Net
  -Test communications from impacted counties to the net and state EOC
  -Santa Rosa County will be the primary operating position for HF
-Activate a restricted net condition on SARNET to allow communication from county EOC's to the State EOC and other state/federal partners
  -The State EOC will be the primary operating position for SARNET
  -Do not engage or respond to anyone attempting to cause problems or intentional interference on SARNET
-Document all activities on proper ICS forms
  -ICS 309 for all communications
  -ICS 214A for all major activities
  -ICS 213 for all formal message traffic
  -Formal traffic at SEOC to be delivered to operations desk or watch office (Contact Arc if needed)

8. Current and Planned Actions, Strategies, and Tactics:

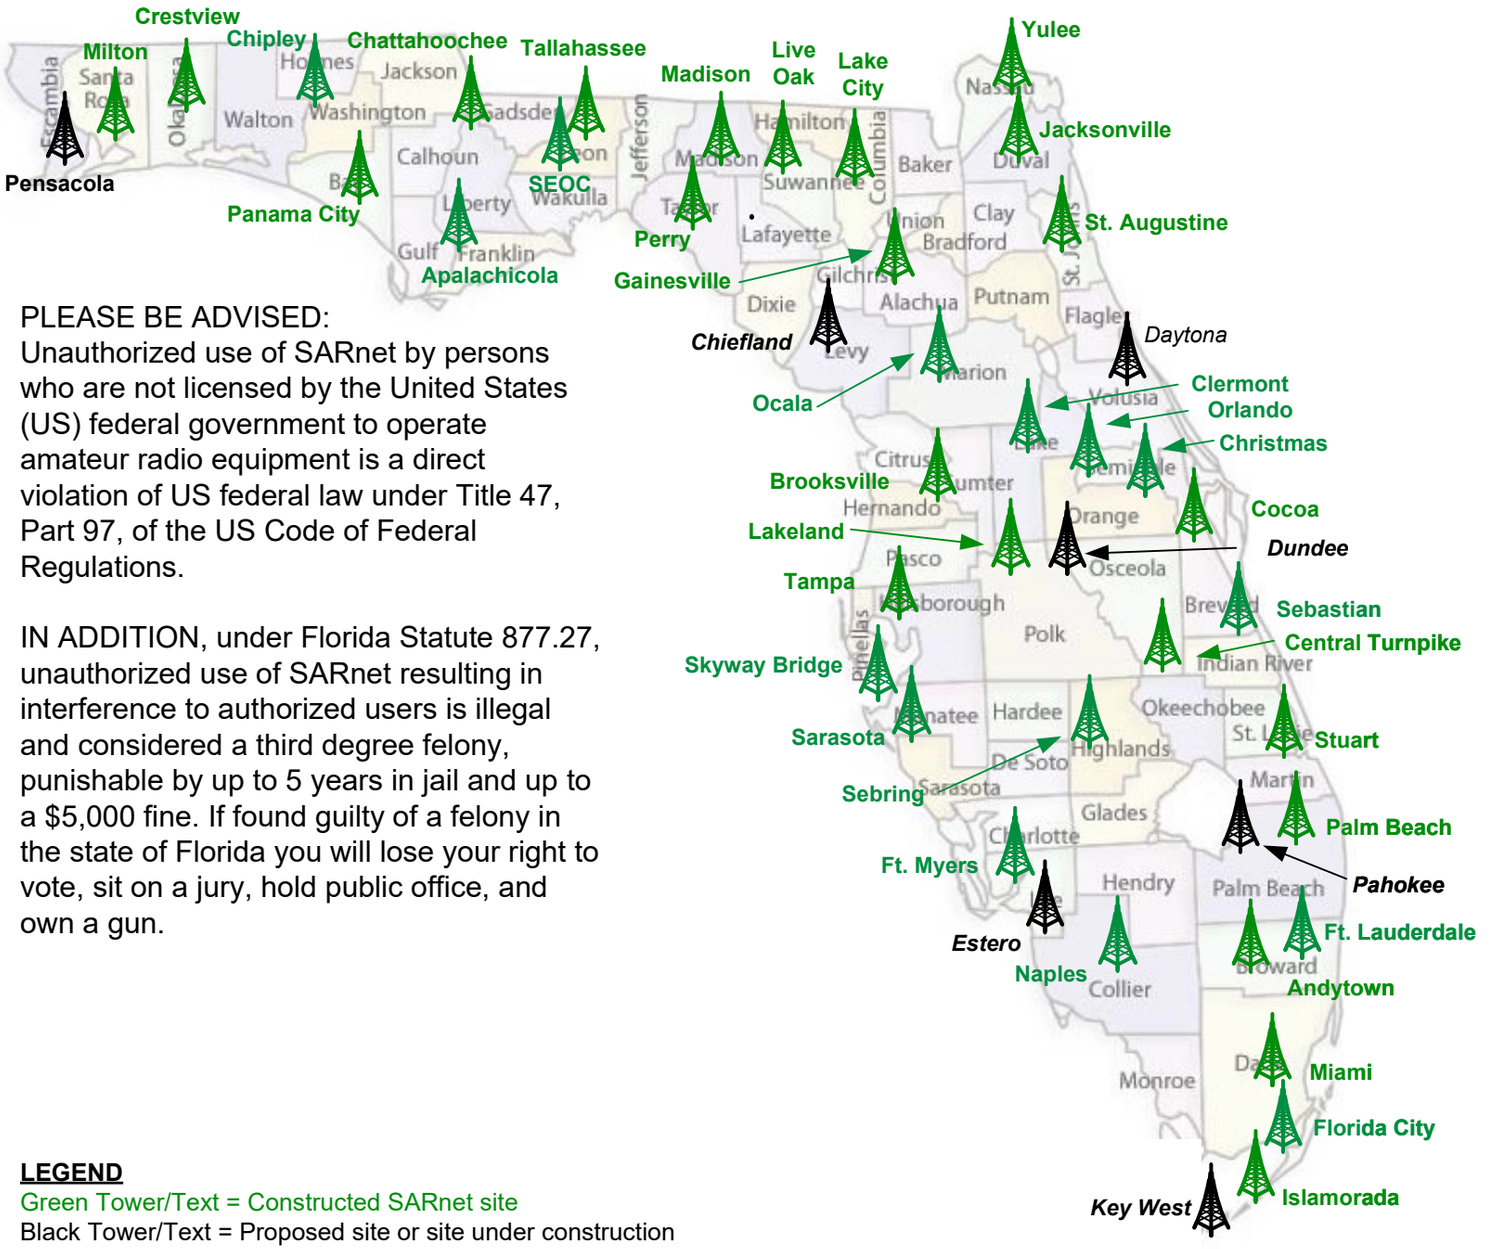
Time:	Actions:
10/08 1900ET	Hold briefing with AUXCOMM volunteers at the State EOC & Santa Rosa EOC via Zoom
10/09 0700ET	SEOC AUXCOMM radio room staffed
10/09 0800ET	SRC EOC AUXCOMM radio room staffed
10/09 1900ET	SEOC AUXCOMM volunteer to place SARNET in a restricted net condition (Arc to post memo)
10/10 0000ET	Santa Rosa AUXCOMM to begin HF net
	Activities continue until released by SWIC

6. Prepared by: Name: Arc Thames Position/Title: AUXC REGS 1 & 2 Signature: _____

 Date/Time: 10/08 1500EDT

Statewide Amateur Radio Network "SARNET"
Constructed Sites as of September 10, 2023

YOU MUST BE A FEDERALLY LICENSED AMATEUR
RADIO OPERATOR WITH A CALLSIGN TO USE SARnet



PLEASE BE ADVISED:
Unauthorized use of SARnet by persons who are not licensed by the United States (US) federal government to operate amateur radio equipment is a direct violation of US federal law under Title 47, Part 97, of the US Code of Federal Regulations.

IN ADDITION, under Florida Statute 877.27, unauthorized use of SARnet resulting in interference to authorized users is illegal and considered a third degree felony, punishable by up to 5 years in jail and up to a $5,000 fine. If found guilty of a felony in the state of Florida you will lose your right to vote, sit on a jury, hold public office, and own a gun.

SARNET DIRECTED NET SCRIPT

Start of net operations & every 30 minutes

This is KA4EOC, at the State of Florida Emergency Operations Center. At the direction of the Florida Division of Emergency Management, SARNET has been placed in a restricted, incident net for communications between state & county Emergency Operations Centers as well as federal partners and agencies. We kindly request that all SARNET users refrain from utilizing the network until incident operations have concluded.

As a reminder, SARNET is not a weather net. Individuals should monitor news, weather radio, and SKYWARN resources in their local area for severe weather updates. SARNET will return to routine amateur use as soon as possible following the conclusion of the current incident. We thank you for your patience and cooperation. This KA4EOC. Operator _____ ***(UNKEY)***

Every 10-15 minutes (or as needed if operators break the restricted net)

This is KA4EOC, at the State of Florida Emergency Operations Center. As a reminder, SARNET is currently in a restricted incident net for communications between state & county Emergency Operations Centers as well as federal partners and agencies. Please refrain from routine amateur traffic until the restricted net condition has been released. This is KA4EOC. Operator _____ ***(UNKEY)***

Dealing with routine traffic

- If someone asks on SARNET if it is available or comes in with a radio check or other routine traffic, please use the abbreviated 10-15 minute announcement above.
- Please remember that there are partner agencies that the State works with that are permitted to utilize SARNET such as the National Hurricane Center, FEMA, and others as well as deployed assets in the field such as the Florida MARC units. When in doubt, allow the traffic to be passed and then contact one of the leadership members to determine if it was ok. We do not want to hinder response activities.
- Weather advisories- SARNET is not a SKYWARN net. Tornado & flash flood warnings are permitted but **are not** to be issued by operators at the State EOC unless directed to do so by the SWIC or other watch office personnel. If someone announces a warning weather advisory, acknowledge it and re-state the abbreviated announcement above. The National Hurricane Center is permitted to make announcements as well.
- Kerchunking & other annoyance traffic should be ignored. If it continues, contact Arc Thames or Thomas Kelly.

Net Closure

This is KA4EOC, at the State of Florida Emergency Operations Center. At this time, the restricted incident net is now closed. Thank you for your patience and cooperation during this incident. SARNET will now return to routine amateur use. KA4EOC Operator _____***(UNKEY)***
